**Allergy Information:** KINeSYS Spray-on Suncare products contain no oil, alcohol, PABA, parabens, preservatives, nanoparticles, nuts, nut-oils, gluten, dairy, egg, soya, sulphites or colorants.

# sunscreen for *everyday*

## How To Use Sprays:

- Apply 30 minutes prior to sun exposure to allow proper bonding
- Hold bottle approximately 8-10 inches from skin
- Fully depress sprayer while sweeping across skin area
- Experience the ultrafine mist of the revolutionary *microSPRAY™* (Feels like powder or a puff of air)
- Dries in 3-4 minutes and does not require rubbing... and don't be shy to re-apply!

To apply to FACE, spray on your hand first and then apply to skin. After you are familiar with use, apply to face directly by covering eyes with your hand and spraying a light mist directly on the skin.

### Ethical Manufacturing

**KINeSYS is committed to making the best sunscreen with the least impact on our world.** We call this philosophy EarthKind™ and it is the basis of a new, more ethical way we make all our products. The electricity we use for production and our facility is from certified 100% green renewable power sources. KINeSYS products are certified by Caring Consumer to be free of animal testing and animal products and are all completely recyclable.

Protect your skin, your lifestyle and your planet  
with EarthKind™ products from KINeSYS.

# KINeSYS

## The Evolution of Sunscreen

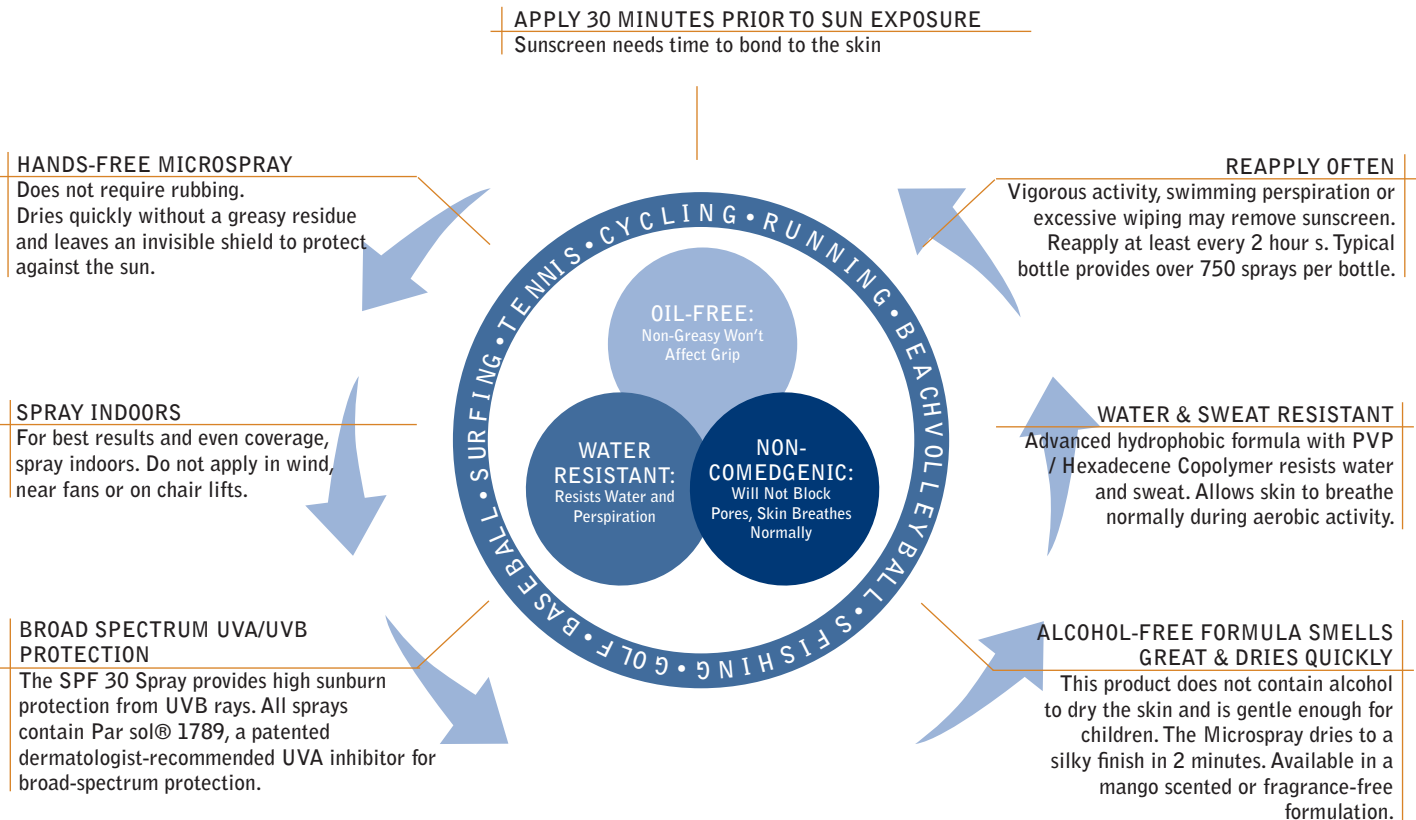

### Why choose a Performance Spray Sunscreen?

Spray sunscreen is a relatively new concept for many users. Loyal users comment that they are easy to use, convenient and highly effective. We recommend following the KINeSYS tips in the chart below to maximize protection, comfort and results.

KINeSYS spray products are so easy to use, that it is almost impossible to go wrong!

The Sports Matrix below provides some interesting information about KINeSYS Spray Sunscreens and helpful hints on how to achieve maximum protection when using them. KINeSYS Spray Sunscreens are the right choice for any sport, any skin type, any age athlete and anytime.

KINeSYS Performance Sunscreens: Formulated to meet the needs of the world's best athletes!

# SPF 30+ Spray Sunscreen

Mango scented  
with Parsol® 1789

Regular Size 120ml  
Approx. 750+ sprays

Travel Size 30ml

## For HIGH Sun Protection:

This sunscreen provides UV protection in situations calling for high sunburn protection. This includes use during the peak hours of UV intensity, exposure at altitude or in reflective environments like the beach, water or snow. It is an ideal choice for athletes who are subject to prolonged sun exposure while training or for those individuals with sun sensitive skin types that require greater UV protection. The gentle formula is still suitable for daily use and the convenient spray format encourages the user to reapply often - the key to successful sunscreen use.

It is PABA-free, oil-free, alcohol-free and sweat and water-resistant. The use of dermatologist recommended Parsol® 1789 ensures broad spectrum protection against UVA and UVB radiation. It sprays on easily and dries quickly without any residue. The right choice for volleyball, skiing, surfing, tennis, fishing or any other activity that requires the protection of a higher SPF product. The sports formula allows the skin to breathe during activity, but is still gentle enough for athletes of any age.

## Protection:

SPF 30+ sunscreen blocks up to 98% of UVB radiation. Like all KINeSYS products, this spray provides full UVA protection as well.

If you are unsure of the level of protection required for the activities of your day, error on the high side and go with a higher SPF product. This product provides high sunburn protection.

SPECS		ORDERING INFORMATION	
Size	UPC	Case Quantity	
120ml	7-78817-00610-1	6	
30ml	7-78817-00132-8	24

# SPF 30+ Spray Sunscreen

Fragrance-free  
with Parsol® 1789

Regular Size 120ml  
Approx. 750+ sprays

Travel Size 30ml

## For HIGH Sun Protection:

New in 2003, this fragrance-free sunscreen provides UV protection in situations calling for high sunburn protection. This includes use during the peak hours of UV intensity, exposure at altitude or in reflective environments like the beach, water or snow. It is an ideal choice for athletes who are subject to prolonged sun exposure while training or for those individuals with sun sensitive skin types that require greater UV protection but who don't want a fragrance in their sunscreen. It is the perfect choice for golfers who don't want to smell like sunscreen or for the walk to work when you don't want to smell like the beach in the office. The gentle formula is a great choice for everyday use - no one will even know you are wearing sunscreen!

This product is fragrance-free, PABA-free, oil-free, alcohol-free and sweat and water-resistant. Parsol® 1789 ensures protection against UVA radiation. It sprays on easily and dries quickly without any residue or any scent. The right choice for any activity or daily use. The sports formula allows the skin to breathe during activity, but can be used by babies, teens, adults and seniors regardless of their activity level.

## Protection:

SPF 30+ sunscreen blocks up to 98% of UVB radiation. Like all KINeSYS products, this spray provides full UVA protection as well. If you are unsure of the level of protection required for the activities of your day, err on the high side and go with a higher SPF product. This product provides high sunburn protection in a fragrance-free formula suitable for sensitive skin.

# SPF 30+ Spray KIDS Sunscreen

Fragrance-free  
with Parsol® 1789

Regular Size 120ml  
Approx. 750+ sprays

Travel Size 30ml

## For HIGH Sun Protection:

This premium sunscreen protects against both UVB and UVA rays in situations calling for high sunburn protection. This includes use during the peak hours of UV intensity in reflective environments like the beach, water or snow. It is an ideal choice for active kids who are subject to sun exposure while playing outside. This gentle non-irritating formula is ideal for children and is suitable for frequent everyday use. It can be used on children 6 months and older and is the perfect sunscreen for a young athlete's sensitive skin. For parents with active children, there is no better choice! This spray has a similar formulation to the outstanding regular KINeSYS formulas, but this KIDS product is also fragrance-free to minimize irritation as well as PABA-free, oil-free, alcohol-free and sweat and water-resistant. The use of dermatologist recommended Parsol® 1789 ensures outstanding protection against UVA radiation. The quick and easy application of this sunscreen spray allows kids to take hold of an active day - it sprays on easily and dries fast for kids on the go! This sunscreen comes in a bright fun package that kids love and ask for by name - a parent's dream!

## PROTECTION:

SPF 30+ sunscreen blocks up to 98% of UVB radiation. Like all KINeSYS products, this spray provides full UVA protection as well. If you are unsure of the level of protection required for the activities of your day, err on the high side and go with a higher SPF product. This product provides high sunburn protection in a fragrance-free formula suitable for sensitive skin.

# The **KINeSYS** Story

In 1993, Jeff Kletter's doctor made matters simple for the 30-year-old: shape up or die young. So, he hired Josie, a personal fitness trainer to coach him back to health. During their workouts, Jeff complained about his sore muscles and how pain relief products simply don't work. Josie joked, perhaps we should make a formula especially for you. And they did. It was the birth of KINeSYS.

With the strong chemistry between them, they quit their jobs, sold their belongings, and began a new partnership in business and in life. They recruited a chemist with 30 years experience to formulate a line of products designed to meet the rigors of professional athletes. They then drafted Dr. Doug Clement, a leading sports medicine physician, to help develop the products and chair a scientific advisory board.

KINeSYS sunscreen - for the active individual who demands the highest performance from their sunscreen

Countless tests and trials have led to the KINeSYS line of Performance Sunscreens, which exceed the requirements of professional athletes and active individuals regardless of skill or age. This gives Jeff and Josie complete confidence when using KINeSYS on the newest addition to their family, their son Jett. KINeSYS products meet the high quality standards they have as new parents and will effectively satisfy the demands of any athlete.
